MEDICAL OFFICER OF HEALTH.

HEALTH REPORT FOR THE YEAR 1923.

To the Chairman and Members of the Castle Donington Rural District Council.

Gentlemen,

I have much pleasure in presenting my Tenth Annual Report on the health and general sanitary condition of the District. On the whole the health of the District during the year has been good - and the freedom from infectious disease and serious illness has been remarkable. The number of deaths reported was two more than in the previous year - and of these twenty two i.e. 34.3 per cent occurred in persons over 65 years of age - on the other hand the number of births registered was one less than in 1922. The number of cases of infectious disease was less than in the preceding year and there was again the absence of anything of the nature of an epidemic. Most of the infectious cases notified were those of Pneumonia (influenzal and otherwise)

VITAL STATISTICS.

The estimated civil population is 6352.

The area in acres is 14486.

Number of inhabited houses was 1500.

Number of families - 1549.
